EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Anne Dougherty on August 27, 2007.

The application has been amended as follows: Please see attached.

The following is an examiner's statement of reasons for allowance:

As per claims 1 and 8:

Whyte, U.S. PG-PUB 2004/0117649 is the closest art of record and discloses a method for constructing shares in a secret over a network comprising a number of computing devices, each arranged to securely store at least one share in the secret k for which n shares are required to reconstruct the secret and to which access to a number m of the shares can be reliably provided at any given time (abstract). Whyte fails to disclose the calculations involved in calculating an RSA inverse with the RSA inverse being used as the secret key to be reconstructed amongst a plurality of computing devices.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
